

**KEEP IN TRACK**

WHY MINITOP®?

1

## At Your service. Every step of the way.

Since 1995 we have been serving our customers with passion by offering specialization, expertise, and innovation!

Recently celebrating 30 years in business, we have launched, as a world exclusive, our newly patented Tracksformer® rubber track and a new product line: undercarriage.

MISSION

2

**MINITOP® makes  
business better.**

We are a powerful and flexible solution for businesses, whether in the office, on the worksite or in the field.

The customer care, IT and logistics departments work in perfect synergy to help our customers finding immediate and customized solutions for the products they wish to purchase.

# TRACK

STOCK AND NEW PRODUCTS

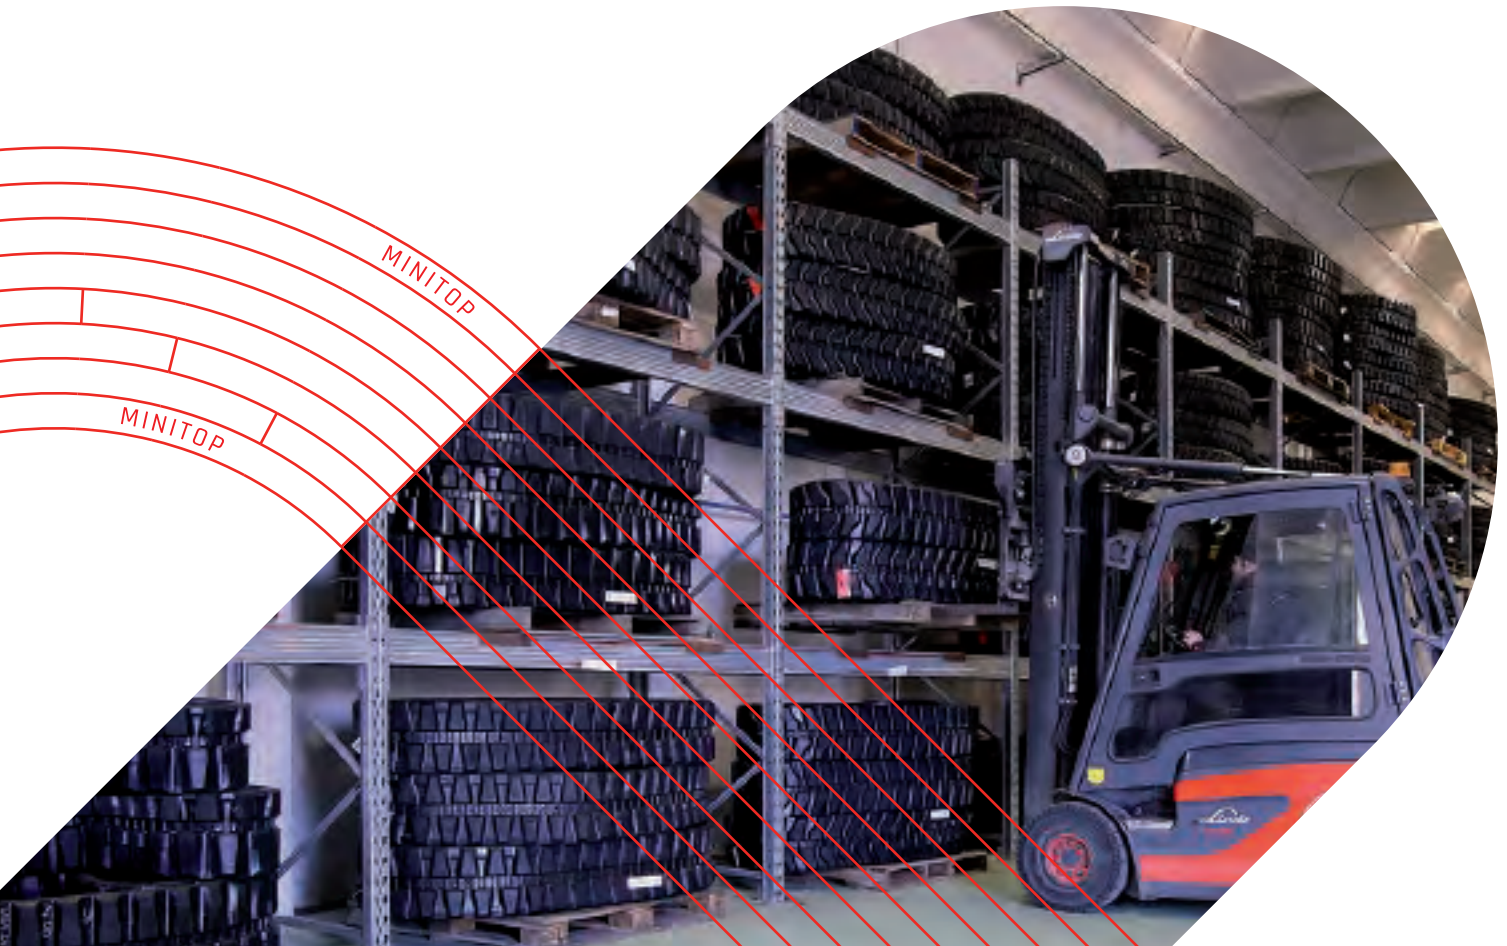

3

## The products you want. When you want.

We meet your needs with more than 400 stock sizes, 6,000 verified applications and a warehouse dedicated exclusively to traditional rubber tracks of 10500m<sup>2</sup>, we are the perfect answer to all your business needs.

We love to listen to our customers which is why we have dedicated a new warehouse to the product line we have launched that will allow you to renew the wear parts of your undercarriage.

With our convenient delivery and pickup options, you can get the products you want more easily and safely.

QUALITY

4

## Top quality, every time, for every customer.

We are recognized by our customers as a precise, reliable, consistent and high-quality company. That's why all our rubber tracks are manufactured with Continuous Steel Cord technology (CSC) and are covered with a 12-month warranty.

With the ISO9001 certificate, obtained about 5 years ago, you have the guarantee of officially regulated work processes on international standards.

MINITOP®: Quality you can see, reliability you can feel.

WORK WITH US

5

## A great team by your side. And working is a pleasure.

We are happy to help you easily choose the perfect rubber track for your tracked construction vehicle and provide the best practices for fitting and use.  
Don't speak Italian? No problem! You can choose to email us, call us on the phone or contact us through the contact form at [www.minitop.it](http://www.minitop.it) in English, French, German, or Spanish-the choice is yours!

Every conversation and every piece of advice we give is one more opportunity to enrich your and our work experience.

## ENVIRONMENT

# 6 Working to make the world a better place.

A rubber track that lasts longer is friendlier to the environment, because extending the average life of a product means having to extract fewer resources from the Earth to make new ones. Our never-ending commitment to making better and more durable products means that MINITOP® rubber tracks can be used for a very long time.

We want to help promoting the most circular economy possible in the earthmoving world as well, which is why we created Tracksformer®: an internally reinforced rubber track (rail type) with replaceable external metal inserts that extend the life of the rubber core up to 5 times longer than a traditional track.
